Final Website

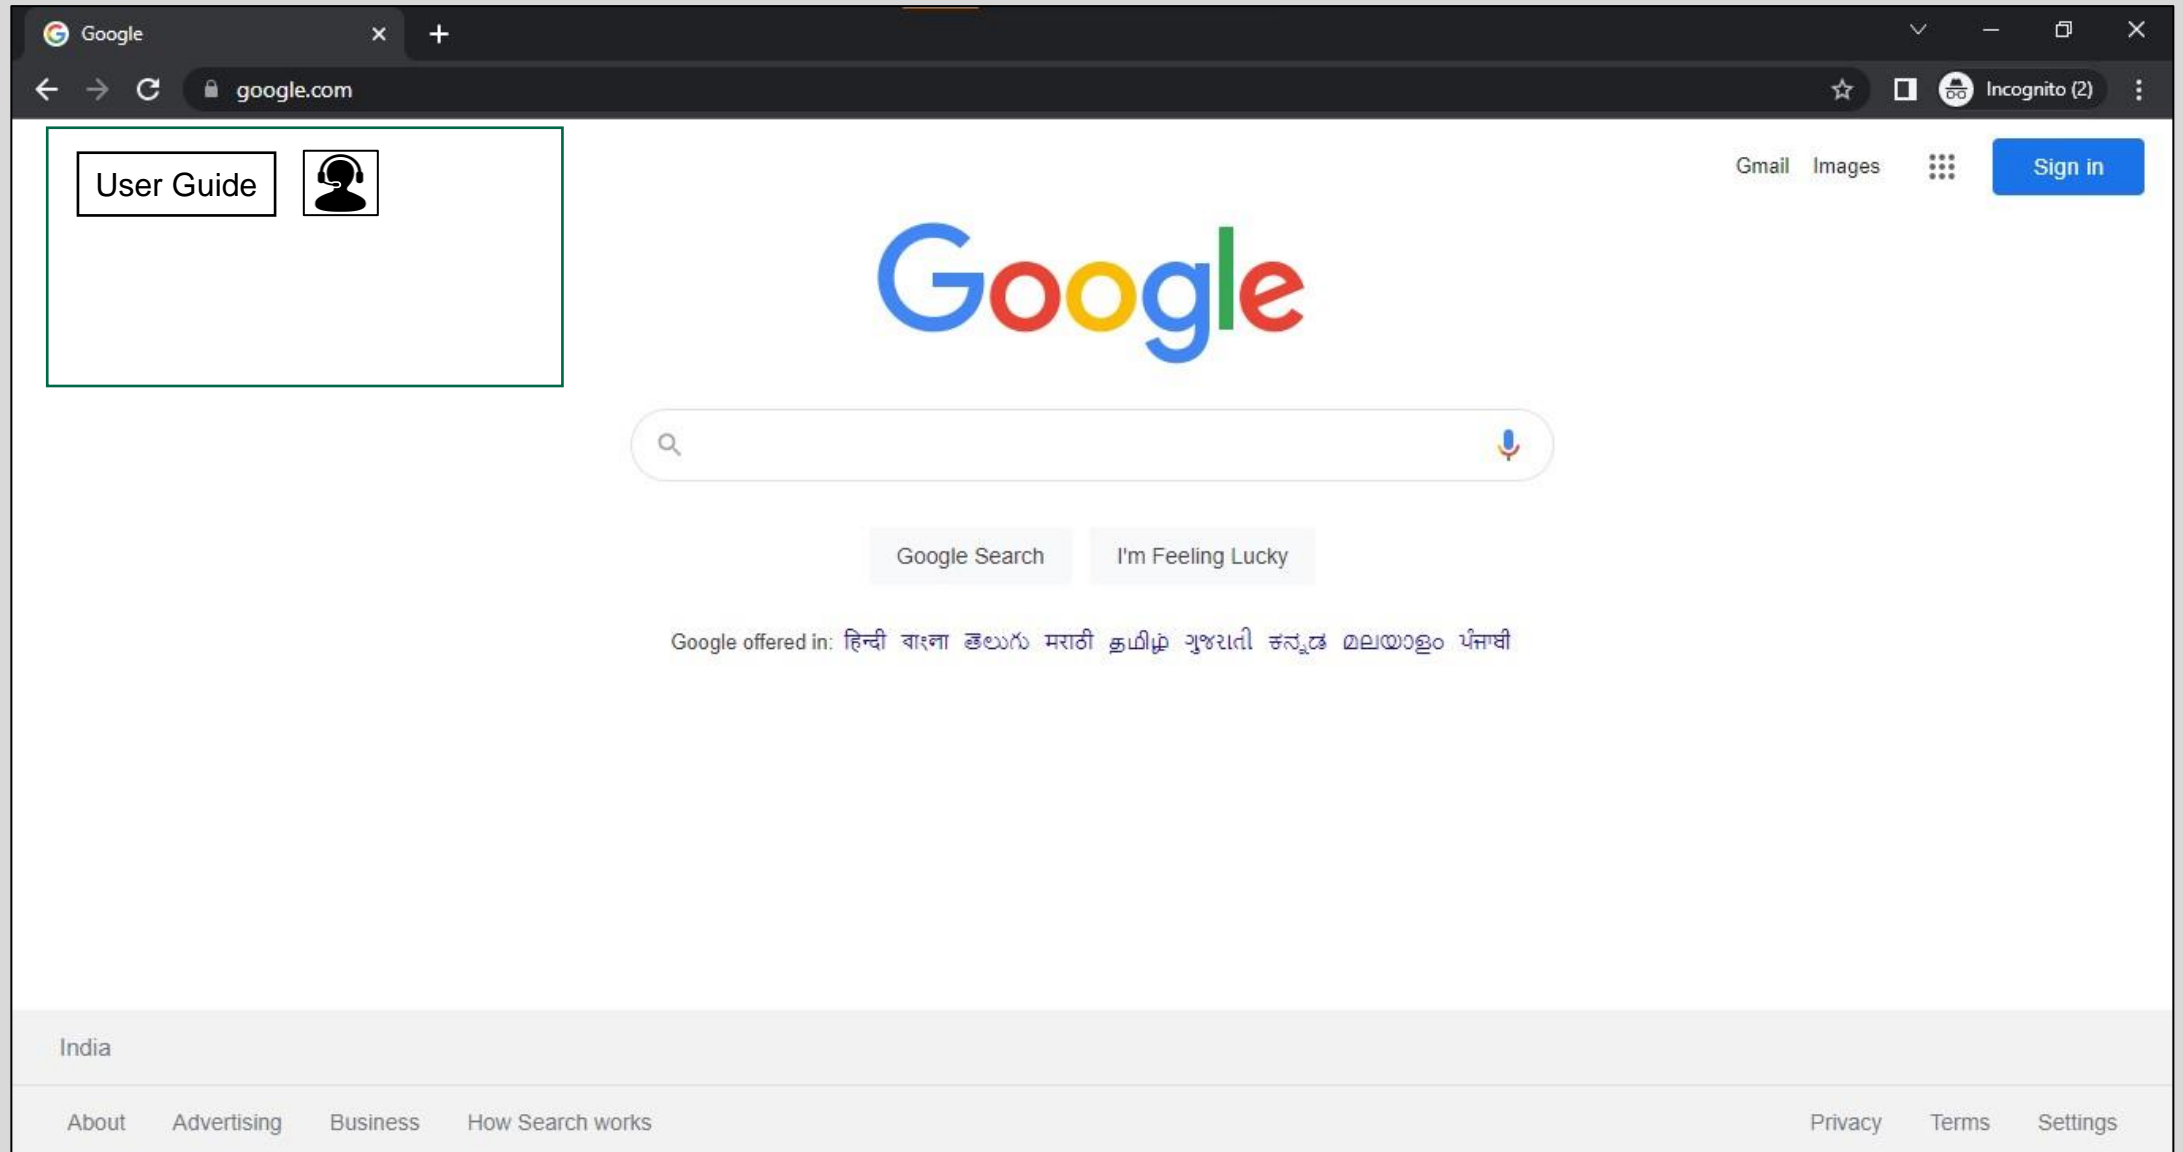

Assumptions

- We are assuming that the user have some familiarity with Web Browsers and how to use it.
- We are assuming that the default home page is defined as google.com
- We are assuming that the user have some idea about how to search and but less knowledge about how to get the desired result.
- We are assuming that the user has good internet connection.
- We are assuming that the user has proper Mouse and Keyboard setup to navigate though Google Search Pages.

Edge Cases

- **No Internet Connection :** If there is no internet connection the UI will have Error Notification and UI will look something different.
- **Incorrect Search Keyword :**
 - **Case 1:** If the person entered incorrect keyword, Google will try to help them and offer result with correct keyword. This information will be displayed just below the Search Box.
 - **Case 2:** If there is no proper keyword available, Google will inform that there is no result.

Discover User Manual : Google Search Page

Discover User Manual : Google Search Result Page

The screenshot shows a Google search result page for the query "alphabet inc". The browser's address bar displays the search URL. The Google logo is on the left, and the search bar contains the text "alphabet inc". To the right of the search bar are icons for settings, a grid of apps, and a "Sign in" button. Below the search bar are tabs for "All", "News", "Images", "Books", "Shopping", and "More". The search results show approximately 11,500,000 results found in 0.41 seconds. The first result is from "https://abc.xyz" and is titled "Alphabet Inc.". The description states that Alphabet Inc. is a holding company that gives ambitious projects the resources, freedom, and focus to make their ideas happen. Below the main result is a section titled "People also ask" with four questions: "Is alphabet Inc owned by Google?", "Which companies are owned by Alphabet?", "Why is Google owned by Alphabet?", and "What do alphabet Inc do?". At the bottom, there is a result from "https://en.wikipedia.org" titled "Alphabet Inc. - Wikipedia". On the right side of the page, there is a knowledge panel for "Alphabet Inc." which includes the company's logo, a description of it as a multinational conglomerate company, its website "abc.xyz", a brief history of its creation from Google, its stock price on NASDAQ, and its CEO, Sundar Pichai.

1. Discover Your Results :

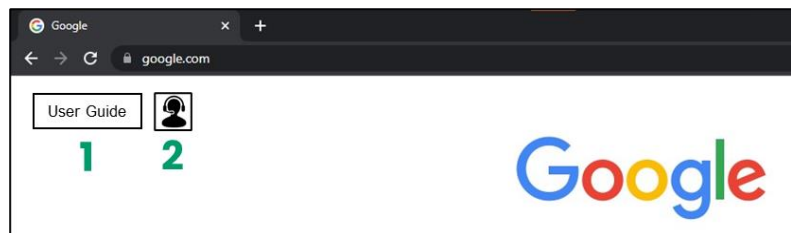

Once you have discovered and have a good understanding about different sections of Google Search & Google Search Result, you're free to move ahead with your task. But before you go we have quick tips to make your outcome even better.

Tips for Best Search Results :

- Always try to be specific with your keyword or sentence that you want to search. For example if you want to search for River Images, type 'River Images India' for good results.
- Always verify the web address and website information before entering the website. Some websites can be unsafe and it's best to double check the website before sharing any kind of information with them.

2. Help Needed :

If you still have some doubt regarding how to navigate through google and get the desired result. You can click on the **Chatbot Option [2]** given beside the **User Manual [1]** and get your doubt cleared with the help of AI Chatbot or Google Customer Support.

Thank You
